## CALM BEFORE A STORM

There Is Less Excitement In Washington Now.

WILL NOT LAST VERY LONG.

Arrangements Being Pushed For Capture of Porto Rico.

PRESIDENT ISSUES A WARNING.

He Wants No Mistake Made Whereby Our Relations With Some of the European Powers Friendly to Spain Might Be Impaired.

Washington, July 21.—The war and navy departments are now engaged in making all arrangements for the dispatch of the Porto Rican expedition and Watson's eastern squadron.

There has occurred one of those natural pauses in the progress of the campaign incident to the completion of one set of operations and the initiation of another.

There being no possibility of the receipt of news of a great battle or of a surrender, there was less excitement and less evidence of nervous strain than for weeks past.

General Miles' expected departure was again deferred. The explanation given was that there was difficulty experienced at Santiago in securing the naval convoy for the expedition.

WANTS NO MISTAKE MADE. It is known, however, in addition that the president himself has restrained General Miles to the extent of adjuring him in earnest terms not to commit the folly of starting for Porto Rico without the most complete preparation.

The government has profited by the lessons taught by the Santiago expedition. Aside from the actual loss of life that might be expected to result from a badly calculated start, it is realized that our relations with some of the European powers would be, in a small measure at least, impaired by the adverse moral effect created by anything approaching a defeat for the American arms at this stage of the war.

Therefore it is certain that so far as the department can prevent, General Miles' soldiers will not run short of food nor of tents to protect them from the tropical rains, nor of the means of transportation that were so deficient at the beginning of the Santiago movement.

MILES HEARD FROM. General Miles reported Wednesday afternoon that he had with him 10 transports, which it is presumed have aboard several thousand soldiers, although at least two of them are filled with equipment.

The men aboard ship are suffering from delay precisely as did the soldiers who lay in Tampa bay before the departure of the Shafter expedition.

Inquiry made at the navy department to ascertain where the delay had arisen in securing convoys was met with the statement that the orders to Admiral Sampson in this matter were very general.

He was simply directed by the department to furnish a convoy, and it was assumed that he would confer with General Miles as to the number and character of vessels required for that purpose.

As the campaign, from a naval point of view, is to be principally a land movement, the naval officers do not believe a very extensive convoy is necessary.

NO ANXIETY ABOUT DEWEY.

According to the calculations at the navy department, Admiral Dewey's fleet at Cavite should now be reinforced by the coast defense vessel Monterey, which, with her tender and collier, the Brutus, has now been about 20 days out from Honolulu.

With the addition of this fine and powerful monitor Dewey will be able to take care of himself so long as the naval forces in the Philippines are maintaining the relative proportion they now occupy.

However, the disclosure by the state department of the lack of foundation for the sensational stories of strained relations with Germany has largely abated the anxiety entertained at the navy department as to Dewey's position at Manila.

VERY AGREEABLY SURPRISED. The war department was agreeably surprised at the number of bids received in answer to its proposals for transporting the Spaniards now at Santiago to Cadiz.

The terms offered by some of the

companies were also regarded as very reasonable and as it is desirable to terminate the present condition of affairs at Santiago at the earliest possible moment, the award was made immediately.

The bid from the Spanish steamship company was a surprise to the department officials and at least one of them thought that it might be good policy for the government to avail itself of this offer.

YELLOW FEVER WIDELY SPREAD.

Dr. Greenleaf's last report to Secretary Alger from the American camp at Santiago came Wednesday afternoon and was to the effect that while the yellow fever was widely spread among the troops it was very mild in type. General Duffield who has been suffering from the disease was reported to be improving.

The open statement from the Cuban legation here, made to the war department officials that they were prepared to accept as proper the program laid down by General Shafter for the government of affairs at Santiago, is but a prelude, it is hoped, to instructions from that body to the Cuban generals in the field—Garcia, Gomez and others—that will tend to prevent a repetition of the conduct that has jeopardized the relations between the American and Cuban soldiers.

NOT CANONICAL.

Madrid Denies Authorizing General Tora to "Capitulate."

Madrid, July 21.—A semi-official note has been published here explaining the circumstances, from a Spanish standpoint, of the surrender of Santiago de Cuba.

It declares that the letter which General Tora "is alleged to have written to General Shafter is apocryphal," as the telegraph version "contains a statement which it is impossible for General Tora to have made, because it is untrue that his government authorized him to capitulate."

The note continues: "What happened was that the war minister received two telegrams from Captain General Blanco. The first described General Tora's position, which was most pitiful because of the want of provisions and ammunition. It also detailed the enemy's proposals.

"In the second telegram Captain General Blanco gave the terms of the capitulation and requested instructions. The war minister replied to both by telling Captain General Blanco to leave every initiative to General Tora, for it was impossible to recommend any other line of conduct.

"General Tora, accordingly, acted as he thought advisable and would explain before a court-martial the motives which induced him to capitulate."

Germany's Neutrality.

Washington, July 21.—Further inquiries in official quarters as to the alleged complications between the United States and Germany in the Philippines failed to elicit anything which might serve as a foundation for the reports of such complications. On the contrary, it is learned that there have been recent communications between the two governments of a decidedly friendly nature, and that at no time since the war began has there been greater reason than now exists for confidence in Germany's neutrality in the war between the United States and Spain.

Stories Not Believed.

New York, July 21.—Counsel H. S. Rubens of the Cuban junta expressed his disbelief in the reports from Santiago of American dissatisfaction with the Cuban insurgent soldiery. Mr. Rubens said the junta had no information bearing on the report that General Garcia had refused to attend the flag raising at Santiago because the American general had given orders to allow no Cuban soldiers to enter the town.

Dewey Wants to Know.

New York, July 21.—A dispatch from Manila says: Admiral Dewey sent a message to the German admiral recently to inquire whether America and Germany are at peace or at war. If they are at peace, he demanded that the German warships here pursue a different course. If they are at war, he wanted to know it, so he could govern himself accordingly.

Porto Rico Blockade.

Washington, July 21.—A proclamation will be issued shortly by President McKinley extending the blockade now confined exclusively to the port of San Juan to the entire coast line of Porto Rico. The extension is to be preliminary to the beginning of military and naval operations in Porto Rico.

A Spanish Story.

Madrid, July 21.—A dispatch received here from Havana says an American warship fired 100 shots at the town of Santa Cruz del Sur, province of Puerto Principe, without doing any damage. The Spanish force, it is further asserted in the dispatch, has de-

feated the detachment of insurgents in the province of Santa Clara.

Correa Denies.

Madrid, July 21.—The minister for war, General Correa, categorically denies that Captain General Blanco has resigned. He adds that there is absolutely no news from Cuba, "as the Americans control the wires and refuse to transmit official dispatches."

Spain Will Seek Peace.

New York, July 21.—A Madrid dispatch asserts that the council has unanimously agreed to seek peace. The responsibility for capitulation is left to Captain General Blanco and General Tora solely.

General Garcia Killed.

New York, July 21.—A report has reached here that General Garcia was killed in battle before Santiago. The Cuban junta has not heard from him since July 11, but have received no notice of his death.

Sailed From Charleston.

Charleston, S. C., July 21.—Four thousand troops under command of General Wilson sailed for Porto Rico shortly after 6 o'clock Wednesday afternoon.

Two More Transports Arrive.

Washington, July 21.—General Miles telegraphed the war department announcing the arrival there from Tampa of the transports Lampasas and Mueces with about 600 men on board. These are supposed to include the District of Columbia engineers and an artillery battery.

Condemned as a Nuisance.

San Francisco, July 21.—Orders have been issued by Major General Merriam, directing the troops designated for the Rio Janeiro to embark Friday afternoon and directing her to sail Saturday. Sixty officers and 900 men have been assigned to the Rio Janeiro, including many officers of Major General Otis' staff, who were left behind; Brigadier General Otis and staff, two battalions of the South Dakota volunteers, 105 officers and men of the Utah volunteer artillery and 53 men of the signal corps. The St. Paul will be ready next Tuesday. Camp Merritt was formally condemned as a nuisance by the board of health.

May Have Been Captured.

St. Thomas, D. W. I., July 21.—The Compagnie Generale Transatlantique's steamer Olinda-Rodriguez, formerly the Franconia (gross tonnage 3,188, net 1,676), plying between Havre and Haytien ports, is now three days overdue from Porto Plata, Santo Domingo. It is supposed that she has been captured while attempting to run the blockade at San Juan de Porto Rico. After leaving San Juan on July 4 she was warned not to attempt to enter on her return voyage.

Bryan at Nashville.

Nashville, July 21.—Hon. Benton McMillan presented Colonel W. J. Bryan to the large and enthusiastic audience of men and women who greeted him with cheers. Colonel Bryan then spoke, eulogizing the southern people.

An Order Revoked.

Washington, July 21.—The order sending 19 paymasters to Santiago to pay the troops under General Shafter, has been revoked, it having been ascertained that there are not complete records and rolls of the army in Cuba to enable payment to be made.

Property of Uncle Sam.

Washington, July 21.—Secretary Alger announced that it had been finally and definitely decided that the ships taken in Santiago harbor by the surrender of that city become United States property, not prizes of either the army or the navy.

Colored Troops Mustered In.

Springfield, Ill., July 21.—The work of mustering in the Eighth Illinois infantry volunteers, colored, has been completed excepting the field and staff officers, who have not yet been appointed by Governor Tanner.

Spanish Torpedo Boat.

Assumption, Paraguay, July 21.—The Spanish torpedo gunboat Temerario, which has been undergoing repairs here, has left this port, going in the direction of Cuyaba, Brazil.

Recovered From Poisoning.

Camp Alger, July 21.—With the exception of about 10 men, the members of the Kansas regiment who were poisoned by eating hash have been discharged from the hospital.

Rejoicing In Havana.

Havana, July 21.—There is great rejoicing here over the alleged Spanish victory at Santiago. It is an incident similar to that after the Manila victory.

The Fruit Market Overstocked.

Greentown, Ind., July 21.—The markets in this part of the state are overstocked with berries and small fruit. One farmer reports that he has 500 bushels of fine plums and can not get an offer for them.

## BIDS OPENED.

Offers of Transportation For Spanish Soldiers Have a Wide Range.

New York, July 21.—Bids for the transportation of the Spanish troops which surrendered at Santiago were opened in the quartermaster's department in the army building. The bids call for the transportation of 1,000 officers and 24,000 enlisted men, to be transported from Santiago de Cuba to Cadiz, Spain, or any other port, as may hereafter be designated.

The bids have a wide range, and are as follows:

The New England Chemical Supply of Boston, \$380,000 for all officers and men.

I. A. Thiem & Company of Philadelphia, \$385,000 for all, 25,000 Spaniards. James N. Elwell & Company offer to take on steamer Neustria 1,000 enlisted men at \$35 each, and all the officers at \$75 each.

W. H. Thompson offers a steamer to take 150 officers at \$90 each, and 1,400 enlisted men at \$45 each.

George A. Lord, \$37.50 per man for the enlisted men, and \$72.50 per officer for the officers.

Joseph L. St. John, \$37.37 per officer and \$24.87 per enlisted man.

The Spanish Transatlantic company, through R. A. C. Smith, offered to take all the officers at \$30 each, and all the men at \$30 each, agreeing to carry them under the Spanish flag, the United States government to furnish safe transportation.

Spanish Company Gets It.

Washington, July 21.—The contract for transporting home the Spanish prisoners of Santiago has been awarded to J. M. Ceballos, New York agent for the Spanish Transatlantic company. Sixty dollars will be paid for each officer and \$30 for each private.

The Bear Heard From.

Washington, July 21.—The following telegram has been received from Captain Tuttle of the revenue cutter Bear, commander of the overland relief expedition:

"St. Michael, Alaska, June 26.—The overland relief expedition reached Point Barrow March 29; all well and the herd of rein deer in good condition. There is food enough in sight to last until August. Hopes are entertained that most of the vessels will be saved. In that case there will be but 100 men for the Bear to bring down. Three men (names unknown) wandered away from the station and were frozen to death. As soon as supplies can be procured here the Bear will start north."

Claim For \$50,000 Damages.

Crown Point, Ind., July 21.—John and Barringer Brown of this city, two of the largest ranch owners in the Kankakee valley, have filed a \$50,000 damage suit in the Lake circuit court against the Monon Railroad company, claiming that the big fire which burned over 1,000 acres of land last fall was started by a spark from an engine on their line. Should the Browns be successful in their suit, it is said several other ranch owners will file similar proceedings.

Christian Church Damaged.

Kokomo, Ind., July 21.—Lightning struck Adam Stahl's barn, one of the largest in Howard county, burning it and contents, causing a loss of \$3,000. During the same storm lightning struck the Christian church at Center and several persons were injured by falling plaster. Several other buildings in the same village were also struck and damaged.

Murderous Assault.

Bedford, Ind., July 21.—Felix Lautz, living in the quarry district, is under arrest for a murderous attack on Mrs. Peter Diehl, whom he struck over the head with a club. He was arrested at Bloomington. Mrs. Diehl is quite old, and the injury is serious. Lautz also stands accused of stealing a watch from Mr. Diehl, and he has been committed in default of \$1,000.

Election Commission Meets.

Frankfort, Ky., July 21.—The Goebel election commission met behind closed doors in Louisville. Members of county election boards were to be selected. Ex-Senator Blackburn passed through last night on his way to attend the meeting and it is understood he and Senator Goebel have made up a list for the larger counties of the state which will be approved.

Tony Dehner Kills Himself.

Terre Haute, Ind., July 21.—Tony Dehner, formerly agent here at different times for the Pabst and Indianapolis beer companies, shot himself at Kansas City with suicidal intent. He last served the Pabst company as agent at Louisville, Ky., where he fell short in his accounts.

Seattle, Wash., July 21.—The steamer Lakme arrived from St. Michael with 100 passengers and gold dust estimated at \$250,000, in addition to drafts representing a large amount.

## BRIGHT AND CHEERFUL

Is the Picture Santiago de Cuba Presents.

WAS DIFFERENT RECENTLY.

Everything Now Denotes Bustle and Activity.

STARS AND STRIPES FLOATING.

Ships Are Unloading the Cargoes of Provisions, and Pawn Shops Are Doing an Immense Business in Crosses, Machetes and The Like.

Santiago de Cuba, July 21.—This city presents a bright and cheerful picture to what it did a few days ago. Over 30 steamers flying the stars and stripes lie proudly in or near the harbor.

Small boats are plying briskly to and fro on the blue waters.

Several large steamers, the State of Texas, Leona and Aranzas, are alongside the wharves busily engaged in unloading their large cargoes of supplies and provision.

In short, everything denotes bustle and activity. To the graveyard appearance of the city recently, has succeeded a scene of life and energy, traffic and general activity.

The immense sheds along the water front are already packed with merchandise and the large stores rented along Marina street are busy receiving goods which are being steadily unloaded. Everywhere there are signs of a revival of commercial activity and prosperity.

The change in the appearance of the city is kaleidoscopic and a couple of days, when further shipments arrive, will suffice for the normal business to revive.

The trades and business houses have opened their doors, cleared their warehouses and made ready for the receipt of goods.

All the stores are open, by General McKibbin's orders, but the saloons remain closed for the present in order to avoid the possibility of a clash between the soldiers in case of drunkenness.

The electric light plant is working. The pawn shops are doing a rushing business, their counters being crowded by people of all sorts of color and conditions, pawning heirlooms, clothes, dresses and furniture.

Officers tender their medals, spurs and swords, and civil employes offer their tortoise shell gold headed canes for a mere song, which are in turn bought at fancy prices by American soldiers, officers or newspaper correspondents as relics of the war.

There have been more machetes sold to our men as souvenirs than were laid down on the morning of the surrender, and crosses, service stripes and orders are cheerfully parted with for American cash.

Headed For Tampa.

New Orleans, July 21.—Two companies of the Fifth United States regular infantry passed through the city en route to Tampa, where the regiment is mobilizing preparatory to embarking for Porto Rico. Company F came from Galveston and Company D from Fort St. Philip.

Dose of Their Own Medicine.

Madrid, July 21.—Advices received here from the Philippine islands say that the natives are ill-treating 4,000 Spanish prisoners, but that it is hoped the friendly offices of the French government will rescue many of the Spaniards.

Memorial to Be Erected.

Cincinnati, July 21.—The sessions of the second day of the fifty-ninth annual convention of the Beta Theta Pi fraternity were devoted mostly to the reports of committees. It was decided to erect a memorial at Miami university, Oxford, O., where the fraternity was founded in 1839 by John Riley Knox, Samuel Taylor Marshall, David Lorton, James George Smith, Henry Hardin, Michael Charles Ryan, Thomas Gordon and others. The names of all the founders will be inscribed on a tablet underneath the bust of Knox.

New Holland, O., July 21.—This town was nearly wiped out by fire at an early hour Wednesday morning. All the business houses on the principal street and a hotel were entirely destroyed. The only fire protection was a chemical engine which became disabled when put to use. It is estimated that the loss will reach \$75,000.

## EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
**ROSSER & MCCARTHY,**  
Proprietors.  
THURSDAY, JULY 21, 1898.

For Kentucky—Fair; cooler; northerly winds, becoming variable.

From a financial point that victory at Santiago was a pretty good one for Uncle Sam. The value of the Spanish rifles, guns, ammunition and vessels captured runs up into the millions.

SENATOR DEBOR has appointed his wife as his Private Secretary. The salary is \$1,200 a year. The Senator no doubt feels this will be his only term in Congress and he's out for all in sight.

It is announced that Governor Bradley will deliver some speeches in the approaching State campaign, but will make no defense of the National administration. Well, he will have his hands full defending his own administration in Kentucky.

### THE NINTH DISTRICT.

Democrats Have Excellent Prospects of Winning—Pugh's Work Against An Old Veteran.

[Courier-Journal]

The Ninth Congressional district Democratic convention may yet prove to be one of the most hotly-contested of all held in the State this year. The nomination of Congressman Pugh gives to the Democrats the best opportunity they have had since 1892 to carry the district.

Up to 1894 Judge Thomas H. Paynter, Democrat, now of the Court of Appeals, had served as Congressman from the Ninth for several terms. In 1894 Mr. Pugh defeated Mr. Rolla K. Hart by about 600 votes, and in 1896 he defeated Mr. LaRue Thomas by only 275 votes. During the past two years Mr. Pugh has incurred the ill-will of many of the leading Republicans in the district. He assisted in turning down a Union veteran for Pension Agent, and he sought to use the Hon. J. B. Wilhoit, of Carter County, as a catspaw in certain political schemes. The disaffection is such that Mr. Pugh himself told President McKinley that while he would be renominated he could not be re-elected this fall.

The fine prospect for electing a Democrat resulted a day or two ago in the announcement of Mr. J. N. Kehoe, of Mason County, as a candidate for the Democratic nomination, while the Hon. Waller Sharp, of Bath County, has also about decided to run. Both are strong men in the district, and no matter who becomes a candidate the race will be between those two. Mr. Frank Powers, of Carter County, may run, while Mr. George J. Justice has formally announced his candidacy.

The convention will be held at Cynthiana on August 10. A committee has been appointed to raise funds and arrange for the entertainment of the delegates and properly celebrate the occasion. The prospects for electing the nominee are as good as in the Eighth district, if not better.

### Electric Park.

"The best show of its kind ever presented in Maysville" is the verdict of the people in regard to the excellent program presented at this resort this week. The show speaks for itself, and it is shown by the large crowds that have been out every night. To-night there will be a change in the program. A new opening farce will be put on, while the performers will have something new to say. Beyond a doubt Parkinson and Roth in their comedy skit, "A Crazy Pair," present one of the most laughable acts ever seen here. Mr. Parkinson is a born comedian and Miss Roth is an accomplished vocalist, musician and actress. The Eldons are most amusing in their comedy acrobatic novelty, "Courtship in a Chinese Laundry." Ten cents pays your round-trip car fare and gives you a ticket to the theatre.

### How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and give a good complexion. Every bottle guaranteed. Sold at J. J. Wood & Son's drug store. Fifty cents per bottle.

## GOOD TIMES AHEAD.

Big Increase in Value of Agricultural Products—Conditions Insure Several Years of Prosperity.

NEW YORK, July 19.—A comprehensive inquiry into present agricultural conditions at home and abroad has been conducted by the Orange Judd syndicate of agricultural weeklies. It leads to the conclusion that America in particular, and the world in general, will see several years of good times, based upon the bed rock of agricultural prosperity.

One thousand millions of dollars will hardly measure the increase in the farmers' receipts for last year's product over the values that prevailed as late as 1895. More than \$100,000,000 of farm mortgages have been paid off during the past two years. Millions in chattel mortgages have been wiped out, and the paying up of other forms of indebtedness has become almost a mania in the West. This has been attended with such an increase in bank deposits that throughout much of the trans-Missouri country interest rates on farm loans are down to from 5 to 8 per cent., contrasted with from 6 to 10 per cent. or more, as late as two years ago.

These gains in the West are largely responsible for the vast increase in national bank resources of more than \$1,000,000,000 since the low point of 1893, and more than \$400,000,000 during the past twelve months.

The two wheat crops of 1896 and 1897 have returned farmers nearly twice as much as the crops of 1894 and 1895, a gain of more than \$100,000,000. Corn shows a decline of some \$150,000,000. The American Agriculturist says:

"We look for an industrial activity early this fall quite unparalleled, with quick markets at home and abroad for the surplus of American farms. We find no reason to anticipate higher or fancy prices for produce, but with economy in production and marketing, brought about by recent improvements, and having regard also to the cheapness of manufactures (also due to inventions), and the ease of money, our deliberate conviction is that the average American farmer is to have the largest prosperity he ever enjoyed."

"The strongest possible confirmation of these results and future prospects is afforded by our returns from a majority of the leading farms in all branches in the Western and Middle States. Most of these returns go into considerable detail and give a very full insight into the real state of farmers' finances. They show that trade with the farmers has increased this year from 10 to 300 per cent. over the corresponding seven months of last year."

"Only in one or two cases in business reported as less than last year, and these were for special causes. The universal report is more business. In a few cases manufacturers of popular specialties for farmers are making three and four times as many sales as in recent years. The general unanimity in reporting an increase of trade is proof conclusive of the accuracy of all other evidences of larger purchasing power among farmers. All returns agree that collections are easier among farmers than for years."

### ALGER'S SCHEME.

New York Evening Telegram Says He's Discriminating Against Kentucky Soldiers.

NEW YORK, July 20.—A Washington special to the Evening Telegram this afternoon charges Secretary Alger with discriminating against Southern troops from Democratic States in favor of troops from Republican States.

The telegram says this is particularly true in the case of the Kentucky troops, who ought by all means to have been ordered to join the Porto Rican expedition before this, but have not and their going is in doubt.

For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It don't fail. Trial bottles free at J. J. Wood & Son's drug store.

GRIMES, of Concord, has filed suit in the United States Court at Cincinnati asking for a ruling which will compel the Board of County Commissioners of Adams County, Ohio, to change the present location of the proposed new pike and bridge at the mouth of Brush Creek, which he alleges will greatly damage his farm if built as at present decided upon.

THE Bartine circus, which a few weeks ago showed at several nearby towns, came to grief in Chillicothe, and is now in the hands of the Sheriff. The big tent was attached by the slack wire and trapeze artists for \$160 back salary. Bartine claims that the tent and trappings belong to John Robinson, of Cincinnati. A judgment has been secured against the show and the tent belongings, etc., will be sold at auction in a few days. The performers are hanging about Chillicothe hoping to realize a little money out of the sale.

THE Rapidan has made her initial trip over to enter the regular Newport News and Liverpool trade of the Chesapeake and Ohio Steamship Company, limited. She is one of the largest carriers afloat. Her length over all is 490 feet, beam fifty-six feet, depth thirty-six feet, six inches, dead weight carrying capacity exceeding 11,500 tons. She is built throughout of Siemens-Martin steel. The hull is divided into seven watertight bulkheads, giving her such buoyancy that if any two compartments were open to the water the efficient pumping arrangements with which she is fitted would keep her afloat. This makes the seventh steamer the Chesapeake and Ohio Steamship Company has in its service between Newport News, Va., and Liverpool and London, and will add very greatly to the effectiveness of the fleet, enabling it to make more frequent sailings, and thus permit it to complete for the highest class of cargo.

## D. HUNT & SON.

In kindly response to the request of friends and admirers, Miss Mary E. Weare, on Tuesday evening, gave to a delighted and cultured assembly in Mayslick Christian Church her beautiful and aesthetic lecture on "Architecture." Those having the good fortune of sitting a listener, as well as a beholder, (for voice, gesture and movement were the perfection of melody and grace), under Miss Weare's polished, and at the same time forceful oratory when delivering her sublime lecture on that sublimest of subjects, "Frances E. Willard," will receive no surprise in the statement that this anticipated lecture on Architecture was in every sense a grand intellectual enjoyment. An instructive and entertaining feature was the wonderful and pains-taking historical research, as manifested in her knowledge of architecture as an art, since the building of the Egyptian pyramids, an art which has seemed to move and influence the centuries more than even painting or sculpture. Her readiness in chronology was simply a marvel of memory, and mainly exhibited in making clear how this art in its varied and beautiful changes had from century to century told the story of its period, the thought behind ever constituting its value and interest. Vigor of thought, breadth of culture and thorough grasp of the theme in hand characterized every utterance, every statement of fact in this more than beautiful lecture, and we could but feel how few could afford to lose an opportunity of being present. The peroration was in language glowing and artistic as the subject, setting forth in all the refinement of polished speech that architecture had yet to reach its highest development, which it would and in our own "America." In predicting for Miss Weare a glorious future on the lecture platform the writer congratulates the Christian Endeavor Society of the church on securing services so valuable. Miss Weare is a Mayslick girl by birth, belonging to one of the county's oldest and best families. Kansas City is her present home.

MR. JOHN DIXON, living near the city, had the misfortune to have all his honey stolen a few nights since. It was taken last season by the same gang, it is thought, four or five, who he says came from this city. The quartette or quintette are also operating on chicken houses, having taken up the business where the Dexter crowd left off. They scoured a lot from Mr. Kenas Best recently.

MR. GARLAND B. MEADOWS, an old citizen of this county and Lewis, died at his home in the latter a short time since. He was a nephew of James and Garland Biggers, the former of whom was a well-known tailor here and at Washington.

### TO LEXINGTON SUNDAY,

Many Will Go to See the Soldier Boys and Witness the Flag Presentation. Camp Corbin News.

A large crowd will no doubt take in the excursion to Lexington Sunday to see the soldier boys and witness the presentation of a handsome flag to Company B. The L. and N. has made a very low rate for the occasion—only \$1 for the round trip from Maysville. Make your preparations and take in the trip. It will probably be the last opportunity of visiting the boys at Camp Corbin, as the Fourth Regiment will likely be ordered to some other point next week.

The flag is expected here to-night and will be placed on exhibition in the window at Ray's Postoffice Drugstore.

Lexington Leader: "There is little outside of the regular routine to record from Camp Corbin. The soldiers are being drilled hard and all are eager to learn how to become soldiers. The men have fine constitutions and can undergo a wonderful amount of work. Sergeant McKnight drilled one squad for seven and one-half hours and then they did not want to quit."

The commissions for all the officers have been made out by the Governor and will be presented Saturday or Monday. The latter day is more likely as it is doubtful if the last company will get mustered before Saturday morning.

The surgeons' rolls for the band have been made out and the examination of the members is going on.

Captain Shelby's company was unfurled Wednesday, making ten companies so far equipped. No day has yet been set for giving out the 1,250 rifles to the men.

Company B has ten privates who are lawyers.

A RECENT sale of Mason County real estate will net Uncle Sam about \$30 war tax. At Chicago this week Levi Z. Leiter affixed \$2,100 worth of war revenue stamps to the deed transferring a piece of real estate to Marshal Field.

MR. N. B. MARSH and Mr. Ed. Dillon, ex-Maysvillians, are spending the summer at Wellington Lake, Colorado, where they are having a great time fishing for mountain trout. Mr. Marsh's friends will be glad to know his health is improving.

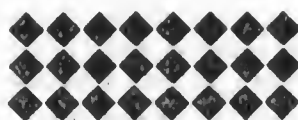

### Fremont Park.

What a pretty ascension that fellow made last night at Fremont Park! This was the consensus of opinion of the big crowd who lined the banks around the pavilion. No hitch, no fake, but, as advertised, the airship flew towards the clouds with as daring an aerialist holding the bars as ever went up. The tent show is excellent, indeed, and the people recognizing the fact that to Col. Fremont belongs the credit of keeping down prices, are flocking to him, and his attempts to please them are well received. Come out to-night and see for yourself.

IRE McALLISTER and Charles Scott, charged with breaking into Mr. J. H. Richardson's residence, were given a hearing in the Police Court Wednesday, and were held to answer at the next term of the Circuit Court. In default of \$100 bail, they were recommitted to jail.

## A Continuation of Our \$7.65 Suit Sale.

We will continue to sell \$10, \$12 and \$15 Suits for \$7.65 during this entire month. There are two reasons for this. One is that we find we have many more good Suits to put in this sale than we thought we had. The other reason is that our many country patrons are in the midst of the heaviest work of the year and did not yet have an opportunity to avail themselves of these splendid bargains, hence the sale continues during the month.

## Don't Miss the Opportunity

of buying for \$7.65 a Suit of Clothes that would cost you from \$12 to \$15 elsewhere, and at these prices you would not pay too much for them. They are worth it. Respectfully,

## BITTEN BY A REPTILE.

Hoosier Girl In a Very Critical Condition.

## SNAKE MADE ITS ESCAPE.

It Is Not Known What Variety It Was, but That It Was Poisonous Is Proven by the Condition of Its Victim.

Bedford, Ind., July 21.—The 17-year-old daughter of George Kern, west of this city, was bitten on the foot by a snake while she was talking with a girl friend. Since then the foot and leg have swollen to enormous proportions, bursting the skin and discharging greenish colored matter. The leg has also turned a dark green color. Miss Kern saw the snake as soon as she was bitten, but she was so frightened that she can not remember its color or kind. Her condition is alarming.

## THE CROP OUTLOOK.

The Rainfall Last Week Unevenly Distributed—Weekly Report of the Weather Bureau.

The weather of the first half of the week was dry and cool, the temperature, especially of the nights, being quite low for the season. The heat increased rapidly after Wednesday, and showery conditions set in on Friday, and continued to the close of the week. The rainfall, however, was poorly distributed, some localities receiving very little or none at all, and others entirely too much.

In Hart, La Rue, Pulaski and Grayson counties, in the Central Section, and in Campbell, in the extreme north Central Section, there is a general complaint of injury from drouth, while in Caldwell, Crittenden, Livingston, Union and Christian counties, in the Western Section, the rains were so heavy as to cause considerable damage to young tobacco and to wheat in stacks and shocks, washing the first out of the ground, and causing the latter to sprout. Although there is more or less complaint of tobacco "frenching," crops have made substantial progress. Corn is all laid by, the fields clear of weeds and grass, and a few correspondents report roasting ears. Tobacco is being topped and some of the early planted fields have been laid by. Wheat threshing is progressing with generally good yields. Oats are turning out only fairly well. Hemp continues to improve and all minor crops are growing well and in good condition.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and richness and grandeur that there is in it. Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a disease spot, and the disease will not stay. A man lives on rich pure blood, and the disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

## MARVELOUS.

No Other Word Expresses Our Foreign Trade For the Year Just Closed Interesting Figures.

WASHINGTON, July 19.—The record of this most remarkable year in the commerce of the United States which has just been completed by the Bureau of Statistics, becomes especially interesting when compared with that of preceding years.

Not only does the year's record surpass that of any previous year in the total exportations and the exports of manufactured articles, but for the first time in the history of the country the exports are twice as great as the imports and the exports of manufactures exceed the imports of manufactures.

The value of the exportations of the fiscal year 1898 is more than seven times that of 1865, four times as much as in 1869, twice as much as in 1877, 60 per cent. more than in 1887, 20 per cent. in excess of the great commercial year of 1892, and \$180,000,000 more than the greatest year of our export trade—1897.

This extension of our export trade has been in all parts of the world, but especially with the distant points and with those countries and continents which but a decade ago purchased but little of our productions.

To Africa, which in 1888 bought but a little over \$3,000,000 worth of our productions, we have, during the past year, sold \$17,000,000 worth; to Japan, which took but little over \$4,000,000 worth in 1888, our sales in the year just ended were valued at \$21,000,000; to China which took but \$4,500,000 worth in 1888, we sold in 1898 \$10,000,000 worth; to Austria-Hungary, which took less than \$500,000 worth in 1888, our sales in 1898 were over \$5,000,000 in value; Belgium, which took less than \$10,000,000 worth in 1888, took \$47,000,000 worth in 1898; Denmark increased from \$3,000,000 in 1888 to over \$12,000,000 in 1898; the Netherlands from \$16,000,000 in 1888 to about \$65,000,000 in 1898; France from less than \$40,000,000 in 1888 to nearly \$100,000,000 in 1898; Germany from \$50,500,000 worth in 1888 to over \$150,000,000 worth in 1898; British North America from \$38,000,000 in 1888 to about \$85,000,000 in 1898 and the United Kingdom from \$302,000,000 in 1888 to about \$540,000,000 in 1898.

## CAMP MEETING.

July 28th to August 15th.

The meetings on these beautiful and much improved grounds will be held beginning July 28th and closing August 14th. Eminent divines will be present. Rev. W. B. Collins, D. D., of Louisville, Ky.; Rev. E. O. Buxton, D. D., of Avondale, O.; Rev. C. W. Barnes, D. D., of Wyoming, O.; and the ministers of the Covington and Ashland districts are expected to be present. The quadrangle services will be on Thursday, August 3rd, Rev. H. C. Northcott and others addressing the meeting.

The singing will be in charge of Prof. Crabbe, of Ashland, assisted by a splendid choir, which is an assurance that the music will be all that could be desired. A splendid addition has been made to the hotel, giving ample accommodations to all. The promenade grounds have been extended, a new stable built and many other improvements made. The grounds are beautiful, and best of all there is an abundance of pure water—two large cisterns, three wells, one of which is 170 feet deep, the water of which we have had analyzed, and it contains the following medical properties: Total solids, 3.6 to the liter; soluble salts, 3.16 to the liter; consisting of chlorides and sulphate of magnesium, sodium and potassium; insoluble salts, 0.44 to the liter; consisting of calcium carbonates with traces of iron.

The hotel and confectionery will be in charge of Hamrick Bros.; stables, Mr. Foxworthy, of Mt. Carmel; baggage room and barber shop, Wallingford & Owens.

The meetings will be in charge of Revs. G. R. Frenger and J. G. Dover, Presiding Elders of the Covington and Ashland districts.

Any one too poor to pay admitted free. Good order will be maintained.

Polit & Barber will have charge of conveyances from Maysville to the grounds. Fare round trip 75 cents. Conveyances will leave Maysville morning and evening at commencement of the meeting.

Any one desiring cottages write to
